Does anyone seriously think that Epstein is dead or Maxwell in prison? If so then, read this

Ghislaine Maxwell was a business partner and very close personal friend of Jeffrey Epstein. She may have even been the brains behind the whole thing. Her father was a spy after all and the two of them made Epstein the influential fixer that he was.

When Webb publicly supports the pleasant fiction that Jeffrey Epstein is dead, it disappoints me.

two weeks before his 'death' Epstein changed his will so no one could know who was in charge of his money after he died.

hours before his 'death' he was allowed to meet privately with his lawyer, perfect time to let Jeff know without being recorded that tonight was the night and everything was in place.

after his 'death' the policy in that federal facility would be to leave the body where it was and photograph it. That did not happen.

after his 'death' the policy in that federal facility would be to leave the body where it was so the Medical Examiner could start his/her investigation. That also did not happen.

after his 'death' Epstein was wheeled out of the tier on a gurney, cameras turned off, and down to the infirmary, cameras turned off, and placed in a van with no windows and taken to a NYC facility. This is of course the only way Epstein could have been extracted from the facility so his death could be staged and he allowed to continue his life.

after his 'death' his personal bank account started mysteriously doing transactions again.

after his 'death' not one single incriminating disclosure has been released as a result of the threats and blackmail he made to those who thought they could do away with him without consequence.

And then of course there is this:

Two weeks after his 'death', Epstein was filmed by a YouTuber on Little St. James Island talking to his head groundsman and assessing the damage after Hurricane Dorian.

When Epstein looked up and saw the drone he calmly slid into the seat and under the canopy of the golf cart… so it couldn't see him.

Anyone else in charge would be yelling at the drone to get the hell out of there. But not this guy.

He hid.

He looks like Epstein. He dresses like Epstein. He stands like Epstein with his arms folded across his chest.

That image is of Jeffrey Epstein on Little St. James island and yet… Whitney Webb would seem to have us believe he is dead like Robert Maxwell and Jean Luc Brunel.

BTW… Maxwell got drunk and fell off his yacht late at night naked and Brunel, well, seems Brunel might have been extracted from a jail in France in the exact same manner his friend Epstein was.

As far as Whitney's take on Ghislaine I think she also misses a big part of the picture.

Maxwell was every bit as powerful a figure behind the scenes as Jeffrey was. Perhaps moreso given her family history.

She almost seems like his handler.

What makes anyone think that the powers that be, the masters of the universe would allow such a powerful figure to sit around rotting in a jail, even a club fed, for more that a couple of hours? It's not done in proper circles.

Ghislaine goes in the front door and out the back while her doppleganger does the time for her, which is a time-honored gig as old as jails and millionaires.

So the notion that this deal will do anything for her other than allow her to mingle again, in the open, in certain social circles, is naive.

But I guess they could look at it like they are returning the favor for the guy who let Jeffrey off the hook in the first place… Donald Trump.

Yes, Epstein was arrested and then extracted under the watchful eye of Donald Trump who was in 2019 the very head of the federal law enforcement system. And Trump of course, was very close with Epstein.

Or maybe Epstein let him know he either got the heck out of there very soon or certain videos would be making their way to MSNBC.

And while we are on the subject… what about all this blackmail stuff?

If Epstein was killed, why didn't a flurry of files get dumped on all sorts of people as I am sure Jeffrey had arraigned for in such an event.

In fact, Ghislaine Maxwell was arrested and refused to open a safe which contained what seems to me to have been just such a trove of files for release if someone betrayed her asset and friend.

Why didn't she release them after his 'death'?

Because he didn't die.

I am curious why Whitney Webb seems to be suggesting Jeffrey Epstein is dead.

Whitney became close to one of Epstein's alleged victims, Maria Farmer. She empathized with her.

Does anyone actually think if Epstein is still alive he's not raping children right now? Does anyone think there isn't another Maria Farmer suffering the same fate quietly and with no one to defend her?

And yet it seems to me so many people who demand truth and justice for Epstein's victims and accountability for his accomplices and fellow pedophiles are more than willing to immediately drop the ball when it comes to obvious facts like I have laid out above that show this man, this billionaire, is still operating above the law while scarring children by the hundreds for life.

I don't get it.

'Her testimony is hard to trust'?

Ghislaine Maxwell was raised by a spook and became a liar, schemer and groomer of children.

WTF would there be to trust with or without stakes for her and Trump?

Jeffrey Epstein is alive and as long as he is he will always be a threat to children. I hope those of you out there who garner tons of attention and support regarding this subject start to address this obvious fact and stop pretending like you can't see the forest for the trees.
